

PROLONGED PROTECTION FOR PATIENTS, STAFF & VISITORS

JET PRO is sporicidal in 1 minute.

Once dry, JET PRO places an invisible barrier on the surface, protecting the surface for up to 8 hours.

Touching the surface weakens the protective barrier, and regrowth of microorganisms will eventually occur.

JET PRO can then be re-applied to remove microorganisms and refresh the protective barrier.

WET KILL

DRY KILL

WET KILL

POWERED BY TRISTEL CLO₂ + PROLONGED PROTECTION TECHNOLOGY

JET PRO is built upon the same chlorine dioxide (CIO_2) chemistry as the Tristel Medical Device Decontamination products. JET PRO incorporates two separate compartments that contain Base Solution (citric acid) and Activator Solution (sodium chlorite).

When mixed by pulling the JET PRO trigger, ClO_2 chemistry is generated. JET PRO contains an amphoteric surfactant for added cleaning performance. ClO_2 eliminates microorganisms by destroying their molecular structures. This means that harmful microbes cannot build resistance to ClO_2 . An extra ingredient enables the foam to kill bacteria and enveloped viruses for up to 8 hours after application.

ECO-FRIENDLY SPORICIDAL WIPES

Efficacy with the standard wipe used in EN 16615 means JET PRO can be paired with any dry wipe.

Use a microfibre cloth or a biodegradable dry wipe to create sporicidal wipes. You can stop using pre-wetted plastic wipes.

PROVEN EFFECTIVE IN 1 MINUTE, AGAINST:

SPORICIDAL	EN 17126
MYCOBACTERICIDAL	EN 14348
VIRUCIDAL	EN 14476
	PAS 2424*
VEASTICIDAL	EN 13624
	EN 16615
FUNGICIDAL	EN 13624
BACTERICIDAL	EN 13727
	EN 16615
	PAS 2424

Bacillus cereus	Escherichia coli	
Bacillus subtilis	Pseudomonas aeruginosa	
Clostridioides difficile	Staphylococcus aureus	
Adenovirus Type 5	Trichophyton interdigitale	
Murine Norovirus	Carbapenem-resistant Enterobacteriaceae (CRE) Klebsiella pneumoniae Methicillin-resistant Staphylococcus aureus (MRSA)	
Poliovirus Type 1		
SARS-CoV-2**		
Tuberculosis (TB) causing Mycobacteria		
Aspergillus brasiliensis	Multidrug-resistant	
Candida albicans	Acinetobacter baumannii (MDRAB)	
Cariulua albicaris	Vancomycin-resistant	
Candida auris	Enterococci (VRE) Enterococcus faecium	
Enterococcus hirae		

Microbiological testing is ongoing. For the latest information please contact validation@tristel.com.

READY TO USE APPLY, WIPLE & WAIT

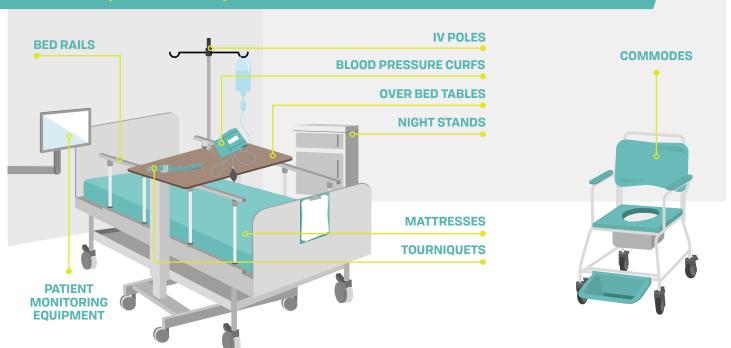

Each bottle of JET PRO delivers 570 doses of sporicidal disinfectant foam. **Simply apply, wipe and wait!**

TOUCH POINTS WITHIN A HEALTHCARE FACILITY THAT REQUIRE FREQUENT CLEANING AND DISINFECTION:

Our team can offer on-site training, product rollout and audit support for your hospital. Get in touch to find out more.
